Speakers

– Primary Facilitator

- Kamran Atri

– Support Facilitator

- Thomas Krul

– Guest Speaker

- Kshemendra Paul

HOUSEKEEPING:

- ***MUTE** your mic when you're not talking*
- ***Identify yourself before you start to speak***
- ***Speak clearly***
- ***Disable “call waiting” feature***
(the clicking noise can be heard by all)

Please note: All 2020 sessions are audio recorded for NIEM training & communications purposes

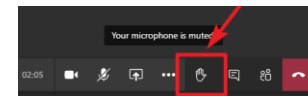

QUESTIONS & ANSWERS ARE ENCOURAGED!

To signal you want to contribute without interrupting the speaker

- Enter comments via **CHAT** window at any time

To signal a question or respond to a question

- Click on ‘**Raise your hand**’ button on meeting toolbar

(Lower hand after you've talked by clicking hand button again)

All session briefings are available on **NIEM's GitHub** for download as they occur

- Brief History of NIEM
- 2020 at a Glance
- Why Data Standardization?
- Expending NIEM Adaption

NIEM BUSINESS ARCHITECTURE COMMITTEE (NBAC)

The mission of the NBAC:

- ✓ **Business Architecture:** The NBAC oversees and validates the construction, maintenance, and use of the business architecture framework for NIEM.
- ✓ **NIEM Core:** The NBAC provides management and oversight of the NIEM Core—the central part of the NIEM data model that's commonly understood across all domains.
- ✓ **Community:** The NBAC serves as the forum for the admission of new domains and interactions between domains, and coordinates action to maintain the NIEM community.
- ✓ **Forecasting:** Determine the need for new data model releases as necessary, such as to accommodate new domains content or to provide business requirements to the NTAC.
- ✓ Submit recommendations to the ESC concerning the admission of a new domain into the NIEM data model.

Data Sharing Facilitated

Data Governance Enforced

Collaboration Maximized

Data Resources Harmonized

Data Direction Orchestrated

Data Architecture Longevity

Data Standards Enforced

Data Management Outreach

INTRODUCING KSHEMENDRA PAUL

**NIEM IS A GRASSROOTS INITIATIVE
BORN AS A BEST PRACTICE DEVELOPED BY
A HANDFUL OF STATE AND LOCAL PRACTITIONERS**

INTRODUCING KSHEMENDRA PAUL

- 2019 – Current, US Department of Veterans Affairs (VA.GOV) – **Chief Data Officer**
- Executive Director, Data Governance and Analytics in the Office of Enterprise Integration (OEI)
 - Mr. Paul serves as VA's Chief Data Officer and is responsible for leading data governance, data analytics, and business intelligence capabilities to inform VA-wide decision making and providing an authoritative clearinghouse for the collection, analysis and dissemination of information about Veterans and VA programs.
- From 2016-2019, Mr. Paul served as the **Cloud Action Officer** for the Department of Homeland Security (DHS) and helped coordinate efforts to migrate information technology assets to cloud management platforms and optimize data centers. He also served as the **Information Sharing and Services Office Deputy Director** for Mission and Strategy within DHS's Office of the Chief Information Officer.
- From 2010-2016, Mr. Paul led information sharing environment efforts for the Office of the Director of National Intelligence. In this role he was the U.S. government lead for advancing terrorism-related information sharing. Mr. Paul worked closely with federal, state, local, tribal and territorial partners, as well as private sector and international allies, to balance the needs for information sharing and safeguarding to enhance national security and protect the American people.
- From 2005-2010, Mr. Paul began his federal service in 2005 as the **Chief Enterprise Architect** at the Department of Justice (DOJ) where he led the delivery of the National Information Exchange Model across public safety, law enforcement and homeland security sectors. From that position, he moved on to serve as the **Federal Chief Architect** in the Office of Management and Budget (OMB) where he led federal enterprise architecture activities. His tenure spanned two administrations, four budgets and an \$80 billion portfolio. At OMB, Mr. Paul directed initiatives that promoted innovation and transparency within the government, including Data.gov.

BRIEF HISTORY OF NIEM

The Global Justice XML Data Model (GJXDM) was announced in April 2003.

The Department of Homeland Security (DHS) was established November 25, 2002.

Built upon GJXDM's success and lessons learned, NIEM was launched in April 2005 by DHS and DOJ.

HHS joined as the third primary sponsor in 2010.

NIEM Biometrics Domain Created 2012.

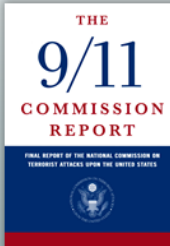

2012 – 2017 New Domains were created (Human Services, MileOPS, Surface Trans, Agriculture, ...).

NIEM 4.0 Released 2017.

NIEM 5.0 Released 2020. Over 12000 Data Attributes Standardized

NIEM Cyber Domain Created 2020.

Identified Data Sharing & Data Standardization as primary issues; And requested that agencies work together to overcome info exchange challenges & gaps across government boundaries in 2004.

2005 – 2010 New Domains were created (CBRN, Maritime, Screening, Immigration, Justice, International Trade, IP, EM...).

NIEM 2.1 Released with 5 Domain in 2006.

NIEM 3.0 Released with 12 Domain in 2013 - 2014.

NIEM 3.0 Released with 12 Domain in 2013 - 2014.

NIEM Requirement was added to Gov Grants Funding - 2018

NIEM Leadership Transferred from DHS to DoD 2019-2020.

NIEM continues to mature adding new communities & building partnership.

2020 NIEM ADOPTION AT A GLANCE

- ✓ US Bureau of Reclamation (USBR) Dept of Interior
- ✓ Possible NIEM Statistics Domain
 - ✓ Coordinated with Census Bureau and Office of MGMT & Budget (OMB)
- ✓ Plan DHS M&S COI NIEM adoption and way ahead
- ✓ Large push for NIEM adoption in Canada in multiple fronts
- ✓ Interaction with IRS on NIEM adoption
- ✓ Controlled Unclassified Information (CUI) NARA
- ✓ National Oceanic and Atmospheric Administration (NOAA)
- ✓ NIEM International tiger team
- ✓ NIEM State, Local and Tribal tiger team
- ✓ NIEM Emerging Technology tiger team
- ✓ Defense Acquisition University (DAU) to develop a course geared towards Program Managers and NIEM
- ✓ ADLNET.GOV – Advanced Distributed Learning (ADL) Initiative, Office of the Secretary of Defense
- ✓ ...

WHY DATA STANDARDIZATION?

- Critical to info sharing & the compatibility of software to software, business to business, and everything in between.
- Enable the essential elements of a data exchange & related infrastructure working together in sharing the right data with others.
- Provide specifications to software developers... To create IT products that will work/communicate with other IT products.

Deviation from data standardization:

Wrong item dispatched to support disasters management.
Wrong water type was sent. No drinking water for 5 days.

WHY IS IT IMPORTANT?

WHY IS IT IMPORTANT?

Following the September 11 attacks, a series of reviews uncovered failures of information sharing both within and between agencies that resulted in the government's failure to prevent the 9/11 attacks. The Report from the National Commission on Terrorist Attacks upon the United States, commonly called the 9/11 Commission, described a number of information sharing failures and recommended a series of reforms to prevent future failures.

It's not about how much information you have, but about having the right information.

Gartner

leading research and advisory company.

"NIEM is now used by many federal agencies, state governments, private sector organizations, and foreign partners. As a side benefit, NIEM promotes information technology (IT) industry adoption as a result of partnering with standards development organizations (SDOs)."

President Obama

12/19/2013

"What is the best investment in government I have ever seen? It turns out it is the small investment we have made in NIEM," Spires said.

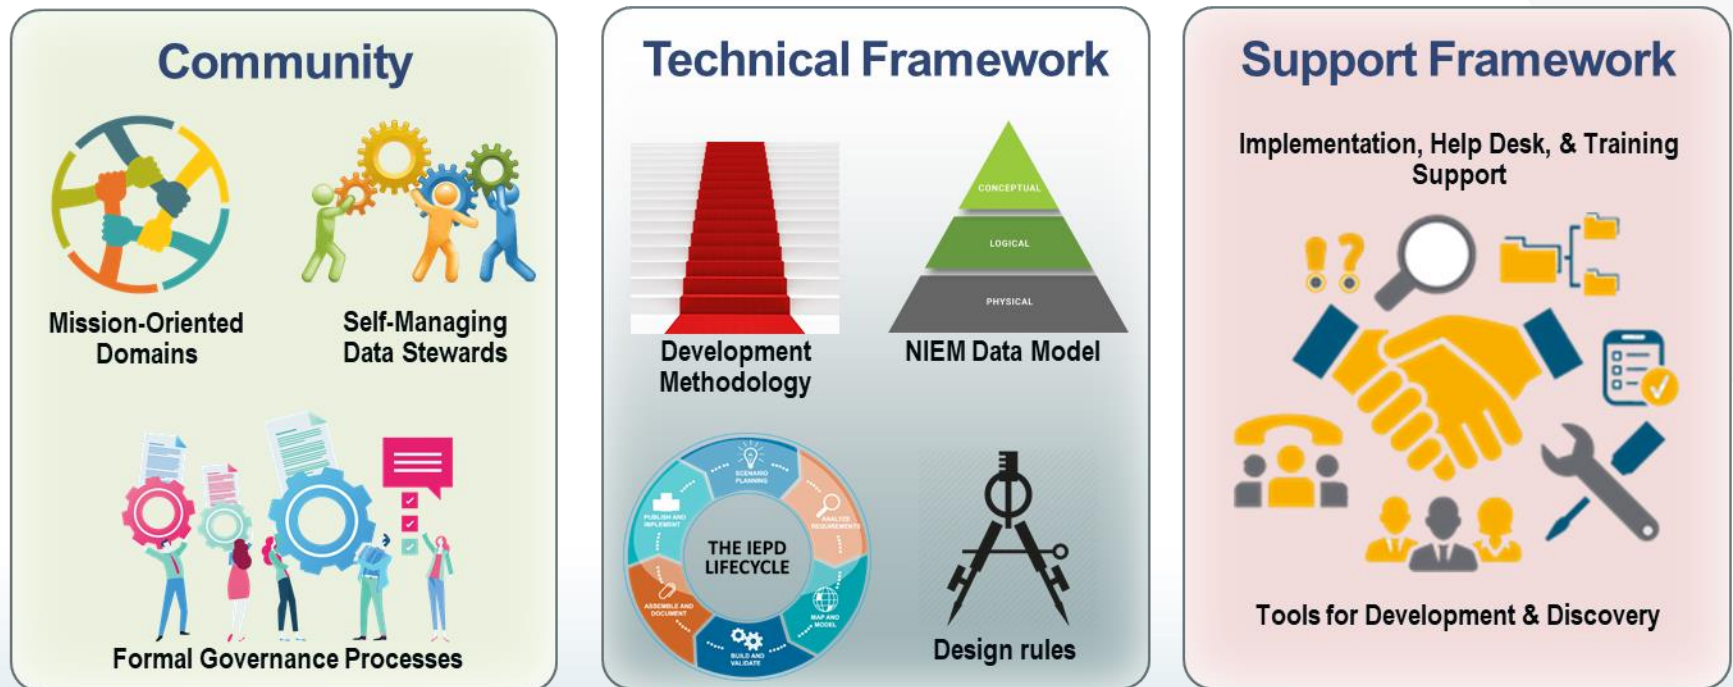

DHS CIO Richard Spires May 2012

NIEM OVERVIEW

NIEM is a community-driven, government-wide, **standards-based** approach to exchanging information. Diverse communities collectively leverage **NIEM to increase efficiencies** and improve decision-making.

It is available to everyone, including both public and private organizations. NIEM includes a large data model (over 12000 attributes), governance, training, tools, technical support services, and an active community to assist users in adopting a standards-based approach to exchanging data.

HOW NIEM ENABLES

Collaboration

Brings stakeholders together through data model or IEPD reuse

Consistency

Provides a standardized framework and mature governance

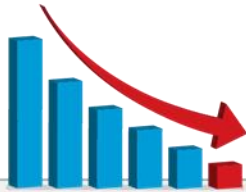

Development

Supplies tools and vetted code-list to aid in discovery and creation of exchanges

Support

Provides technical assistance and training

Which Lead To

Reduced Maintenance Costs

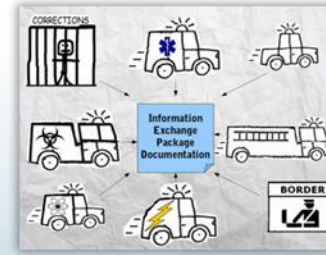

Enhanced Mission Capabilities

Common Vocabulary

Lower Development Costs

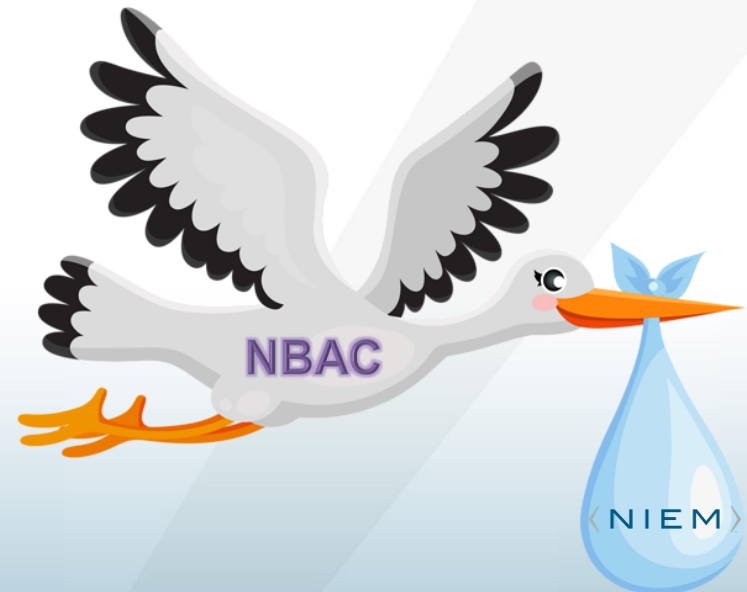

ADVANCE NIEM ADOPTION

- **Expend NIEM Using GAO Reports**
- **Incorporating NIEM into Contract Acquisition (Gov. Contract Vehicles)**
- **Mature NIEM Data Model**
- **Increase NIEM Adoption Through NIEM Teams**
- **Engage Agencies Publications and or Newsletters**

Teams

TAKING ADVANTAGE OF GAO REPORTS

Sample GAO Reports:

- Actions Needed to Ensure Investments in Key Data System Meet Mission and User Needs
- DHS Is Assessing Fusion Center Capabilities and Results, but Needs to More Accurately Account for Federal Funds
- Agencies Could Better Coordinate to Reduce Overlap in Field-Based Activities: They are: Joint Terrorism Task Forces, Field Intelligence Groups, Regional Information Sharing Systems (RISS) centers, state and major urban area fusion centers, and High Intensity Drug Trafficking Area (HIDTA) Investigative Support Centers

Recommendations

- Evaluate GAO Reports monthly and establish way forward to assist report recipient through NBAC and NIEM PMO.
- Engage with GAO PMO and showcase NIEM Value Proposition.

ENGAGE GOVERNMENT CONTRACT VEHICLES

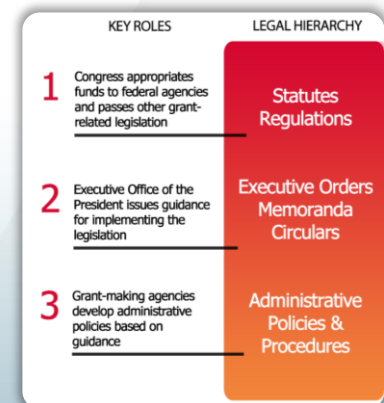

- Government IT Work is Management through Government Contract Vehicles such as:

- Recommendations:**

- NIEM PMO and NBAC Engaging the Government Contract Offices to Showcase NIEM Value Proposition and assist in Adding NIEM Requirements into future Government Contracts.
- Ensure NIEM Requirements stays in the Grants.GOV as a requirement when awarding Grants related contracts.

How Federal Grant Policies Are Made →

MATURE NIEM DATA MODEL
